

CCA EVENTS

CCA hosts two events each year to bring key players in the competitive mobile ecosystem together to network, learn about the latest technologies and share best business practices. CCA events are the ideal meeting place for stakeholders in the mobile industry to come together under one roof.

With **more carriers**, come **more connections!** More carriers attend CCA than any other industry event, giving attendees and exhibitors unprecedented access to top-level executives and companies influencing the industry. CCA events offer something for everyone in your company, from marketing managers and sales personnel to senior-level decision makers. It is an energetic, dynamic community that comes together to meet with current and potential business partners, obtain updates on policy issues in Washington and see what is driving the mobile industry forward.

“ The most valuable aspect of my CCA membership is the access to a strong advocacy platform and a network of carriers who share the same policy concerns. CCA is a known, well-respected voice in the industry, and there’s no better way to get the attention of the decision makers in Washington than by working side-by-side with fellow members. CCA is involved with almost every competitive policy issue, including Universal Service Fund support, access to spectrum, roaming and access to devices, and there’s no other association I rely on more that best represents our interests and policy concerns. ”

~Jonathan Foxman
President & CEO, Cellular One

Why Join CCA?

Ensuring the future of a competitive mobile industry

cca

rural. regional. nationwide.

Who We Are

Competitive Carriers Association (CCA) is a non-profit membership organization and home to nearly 100 competitive mobile carriers serving rural, regional and nationwide areas of the United States. Our mission is to advocate on behalf of our members' interests and educate policymakers on the key issues that impact our members' ability to compete, survive, and thrive in the industry. Our membership also includes nearly 150 associate members who supply goods and services to the carriers. Together, CCA's membership makes up an entire competitive mobile ecosystem - working together to bring the most robust services to consumers all across the nation.

ADVOCACY

CCA is the premier advocate for competitive mobile carriers throughout the U.S. and the international community. Our entire purpose is to assure our members thrive and can best serve their customers. By working closely with policymakers at the Federal Communications Commission (FCC), Members of Congress and The White House, we make certain our members' voices are heard in Washington, DC.

CCA is working hard to ensure competitive carriers have:

- Access to usable spectrum
- Sufficient Universal Service Fund support
- Access to devices and the newest technologies
- Streamlined infrastructure policies

Join us for Capitol Hill Day to meet with key policymakers in Washington! There's no better way to get the attention of your Member of Congress than sitting face to face and discussing your company's issues.

BUSINESS SOLUTIONS

Advocacy is CCA's priority, but our carriers need solutions now! As a complement to our advocacy work, we also work closely with our members to provide business solutions for carriers. CCA's Data Access Hub is one of the most significant programs to date and was created to make connectivity much easier. Carriers that connect with the Hub have immediate access to all other participating operators' networks.

Join CCA and also gain access to other programs including CCA's Device Hub!

Benefits

Discounts on exhibit space and attendee fees at CCA events

Access to a strong advocacy platform

Unmatched networking opportunities

Alerts on issues & industry actions

Participation in CCA's industry development programs

Educational opportunities through events, webinars and more!
